TWENTY-TWO TABLES AT INVITATION WHIST

Arranged by Woman's Guild Members of Grace Church, Yantic.

Several members of the Woman's Guild of Grace church at Yantic held an invitation whist in the fine engine hall Wednesday evening. Twenty-two tables of whist were played. Prizes were awarded to the following: Mrs. John Kilroy, fancy workbag; Mrs. James Moffit, bonbon dish; Mrs. Mary Ladd, cream pitcher; Miss Lena Lester, a box of chocolates. Gentlemen's prizes: M. A. Bolande, bill fold; E. A. Jones, necktie; E. Bogue, box of candy; George W. Rathbone, pack of cards.

Dainty dishes of home made candy were at each table and punch was served by Mrs. Eugene Austin, assisted by Mrs. T. E. Seymour Quinley. The members of the fire company left their decorations up, so the hall was very attractive. The remaining candy was auctioned off at the close and the boxes brought fancy prices. A number wished to dance so several ladies volunteered to play the piano and dancing was enjoyed for the remainder of the evening.

The committee in charge, Mrs. George Adams, Mrs. E. W. Willard, Mrs. H. Bishop, Miss M. St. J. Rudd, Mrs. A. R. Manning and Mrs. R. Farum, was so pleased with the results that other social evenings will follow. There were many guests from North Franklin and Norwich.

Postal officials at Washington have declared this week that business mail need bear the full name, address and street number of the addressee. The Best Index

of what the coffee trade think of the harmfulness of the coffee-drug, caffeine, is shown in their efforts to get rid of it—to get a coffee that **doesn't contain caffeine!**

When they do succeed in getting rid of some of the caffeine drug-content, the result is a weak, "clover-tea" decoction that few appreciate.

But after all their efforts to rid coffee of part of its caffeine, how about the other coffee-drug, "tannin"—about 2-5 grains to every cup of coffee?

Tannin is the drug used to tan hides with. Do you know what it does to your stomach? Probably not. Here is what good authorities say about it:—

"Tannic acid in coffee interferes with digestion."

"The caffeine and theine in coffee and tea are cerebral stimulants and the tannic acid is an astringent, affecting especially the muscular fibers of the intestinal walls."

"Tannic acid is universally condemned by all authorities as a hindrance to digestion and health."

Why keep on running the risk of serious interference with health. Why not quit a table beverage that bears in its train a lot of trouble like nervousness, headache, heart, stomach, bowel disturbance, insomnia, etc.

Thousands, suffering from these ills, find it easy to quit coffee when they have at hand the delicious, nourishing beverage—

POSTUM

—a pure food-drink.

Made from prime wheat (roasted like coffee) and a bit of wholesome molasses, it contains no caffeine, tannin or any other drug or harmful substance.

Postum comes in two forms—**Regular Postum**—must be boiled, 15c and 25c packages; and **Instant Postum**—soluble—made in the cup instantly, 30c and 50c tins. Both kinds are sold by Grocers and the cost per cup is about the same.

Old and young alike, drink **POSTUM** with pleasure and comfort.
